

## UN NETWORK MEETING

### NOVEMBER 6, 2017 | COTE D'IVOIRE

The UN Network for SUN (UNN) brings together all UN agencies working in nutrition to support SUN countries to end malnutrition in all its forms. The SUN Global Gathering 2017 offers a unique opportunity for the UN Network for SUN members from country, regional, and global levels to come together, discuss issues and prepare for the SUN Global Gathering through this one-day meeting.

The aim of the UNN global meeting is to examine where we can work more efficiently and effectively to deliver as ONE in support of national nutrition efforts to ensure a real Decade of Action on Nutrition. Country and regional representatives will help shape the future direction of the UNN through the exchange of practical feedback and insight related to identified opportunities and challenges to multi-sectoral engagement.

The objectives of the UNN global meeting are:

- To create and foster a cohesive UN Network through identification of boosters and barriers to collaboration
- To identify tangible actions for UN to increase synergies along the humanitarian and development continuum
- To understand the role of UN agencies and opportunities for collaboration in the implementation of the Nutrition Decade in the context of SUN and the SDGs
- To define the actions, modus operandi and added-value that maximizes the delivery by the UN Network as ONE on nutrition
- To ensure a consistent, coherent and positive UN voice is heard at the GG sessions.

#### Agenda

Monday, 6 November 2017
